Currencies

Last Modified on 05/30/2022 3:55 pm PDT

Accept over 150 different currencies and receive funds in US dollars. You can support your international customers by presenting your prices in your customers' local currency. The advantage is that an international customer will see their currency on their credit card statement and will not be charged an exchange rate fee.

You can use the Payment Profile settings to configure your payment settings for different currencies. If your account is configured to transact in multiple currencies, you will have multiple Payment Profiles, and you can customize and configure each of them.

To view a breakdown of the transactions per currency, you can view theTransaction Research Report; this report contains all transactions processed including approved and declined transactions. If you have more than one Payment profile or process in multiple currencies, you may see more than one batch per day. When processing in multiple currencies, you will see a row per currency for each post date, via our Reconciliation Report.

Qualpay supports all currencies that MasterCard and Visa accept as a payment type. The supported countries along with currency codes are displayed in the table below.

ISO Country Name	ISO Alpha Country Code	ISO Numeric Country Code	ISO Numeric Currency Code
Afghanistan	AF	4	971
Albania	AL	8	8
Algeria	DZ	12	12
